

Rubicon

Kentucky Bluegrass

Poa pratensis

Rubicon is shaping up to be one of few varieties that has the Wear tolerance and Density to be a true performer in the sports turf arena and ultra high traffic situations. We are proud to offer this type of Quality performer to our customers.

Rubicon is very fine bladed, that exhibits very good summer and fall density ratings. It has shown to be one of the earliest in spring green up and consistently at multiple locations perform very well in under traffic stress.
