LOCALLY GROWN

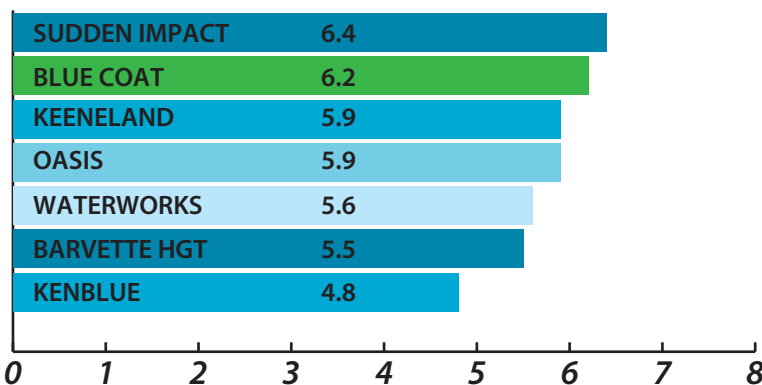

LOCALLY GROWN

BLUE COAT is an improved variety that incorporates the most recent advances in breeding technology to offer darker green color and better disease resistance.

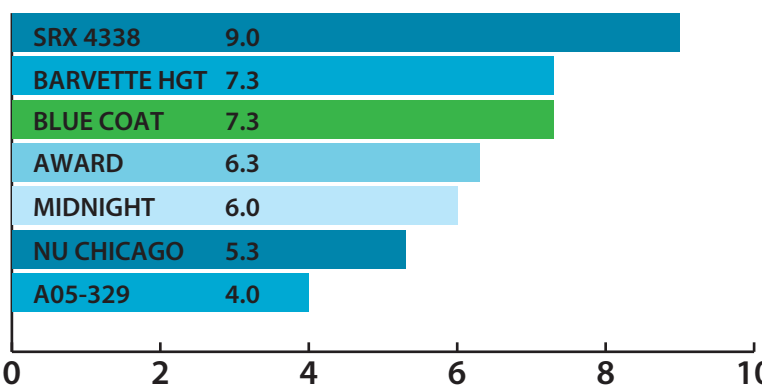

BLUE COAT has exhibited high resistance to rust and summer patch. It also provides a fine to medium leaf texture and excellent density during the growing season.

The ability to handle heavy traffic makes **BLUE COAT** an ideal choice for home lawns, sports fields, parks and golf course fairways, tees and roughs.

NTEP Mean Turfgrass Quality Ratings of Kentucky Bluegrass Cultivars Grown at Four Locations in the U.S., Maintained Using "Schedule B" 2014 Data; Ratings 1-9; 9 = Ideal Turf
