

# KENTUCKY BLUEGRASS

**RUBIX** ranked #1 overall in the 2014 NTEP Turfgrass Quality Ratings, University of Massachusetts Amherst.

Known for its excellent performance in high traffic areas, **RUBIX** excels in sports fields, golf course tees, fairways, and roughs. This fine leafed, medium green colored blade offers superb turf density throughout the growing season. **RUBIX** has superior wear tolerance, and mixes well with other grass species like perennial ryegrass, fine fescue, and tall fescue. This makes **RUBIX** an ideal choice for residential lawns, parks, commercial properties, and sod production.

Currently **RUBIX** is sold in the United States and Canada. It is newly listed in the EU as **TETRIS**.

## FACTS:

- Fine Leaf Texture
