

KENTUCKY BLUEGRASS

Arc Kentucky bluegrass is an improved Shamrock-type Kentucky bluegrass that features a medium blade width and dark green color. It is highly resistant to Rust, Drechslera and Anthracnose, making it an excellent choice for residential and commercial properties, parks, and golf course roughs where quick establishment is desired. **Arc** also blends well with other bluegrasses, perennial ryegrasses, tall fescues and fine fescues making it a versatile and reliable option for any lawn or landscape.

FACTS:

- Improved Rust, Drechslera and Anthracnose resistance
- Aggressive Establishment
