

TALLADEGA II

TURF TYPE TALL FESCUE

TALLADEGA II turf type tall fescue was developed for top rated performance in the Transition Zone of the U.S. This variety provides superior density throughout the growing season in all parts of the U.S. due to its aggressive tillering ability which also helps repair damaged areas of turf.

This variety has shown to have great resistance to brown patch in hot humid climates. Other accomplished benefits that **TALLADEGA II** turf type tall fescue offers are very good performance in drought conditions, fine leaf texture, quick establishment, superior resistance to Grey Leaf Spot, and shade tolerance.

When looking for the best in turf type tall fescue, choose **TALLADEGA II** turf type tall fescue for your application use on residential lawns, parks, sod production, sports fields, golf course roughs and commercial properties. **TALLADEGA II** blends well with other tall fescues and mixes with Kentucky bluegrass, perennial ryegrass and hard fescue.
